**AND FINALLY...**

*Another apology.* Although I thought I'd backed up all my files before swapping computers, I seem to have lost the promised software review of *Starry Night* by Anil Rao, plus profiles of Anil, Chris Butler, and Michael Böhme. I hope they can re-send those by e-mail; next time. . . Also in the pipeline are profiles of new members Detlev van Ravenswaay and Sam Dietze, plus Joe Bergeron, and some thoughts from Armand Cabrera. (And YOU?)

I hope everyone takes a look at this back page from time to time. It contains all the information you need about the IAAA, in order to contact the Board, Editors, send queries about Membership, etc. Still, occasionally we get letters saying "I didn't know how to contact so-and-so" . . .

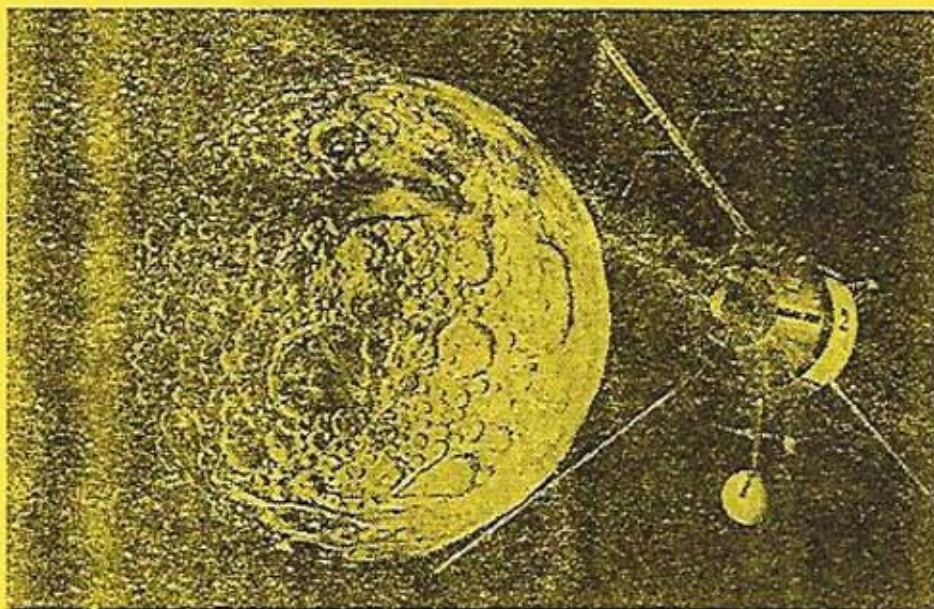

Often, *Pulsar* is supported by a small number of regular contributors. Ask yourself: have *you* ever sent a contribution? If not, please do consider doing so. Are we doing a good job? If not (or if so), let us know!
